Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, claim(s) 1-3 and 7-9 drawn to a method of isolating scFv.

Group II, claim(s) 4-6, 10-15, 29 and 39 drawn to scFv with defined framework.

Group III, claim(s) 16-17, drawn to a method of generating CDR library.

Group IV, claim(s) 18, drawn to a library of intrabodies.

Group V, claim(s) 19-23 and 40-41 drawn to a method of screening for CDRs interacting with antigen.

Group VI, claim(s) 24-28, drawn to a method of screening an antigen interacting with scFv.

Group VII, claim(s) 30, drawn to a use of scFv for screening.

Group VIII, claim(s) 31-38, drawn to a method of identifying intrabody frameworks using marker system.

Art Unit: 1639

The inventions are distinct, each from the other because of the following reasons:

Inventions I, III, V, VI, VII and VIII are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different methods steps accomplishing different results and requiring different components in the methods.

Inventions II and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are different compounds i.e. a library or plurality of compounds for Group IV and single component compound, scFV, for Group II.

Inventions (I, III, V, VI, VII, VIII) and (II and IV) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different

effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different statutory subject matter of compounds of Groups I and IV and the methods of Groups II, III and V-VIII.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and the search required for Group I is not required for Groups II-VIII, specifically literature searches, restriction for examination purposes as indicated is proper.

A telephone call was made to J.Sharp on 8/1/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship

Art Unit: 1639

must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
